

# Summer Club

## Che-mystery Experiment

Discover the difference between physical and chemical changes, make your own volcano, and investigate a substance that is a solid and a liquid at the same time!

Here's what you need:

500 ml Water

250g Corn Flour

2 dessert spoons

1 mixing bowl or similar container

1 tall glass

50ml vinegar

1tbsp baking soda or powder

Food colouring (optional)

Washing up liquid

A shallow tray or dish (to catch any mess)
